COMO ECONOMIZAR ENERGIA

A cada ano o consumo de energia elétrica cresce no País, por causa do aumento do número de aparelhos elétricos e do tempo que esses aparelhos permanecem ligados. Como a energia elétrica produzida em grande parte no Brasil pelas hidrelétricas não se refaz, torna-se importante economizar energia.

ATIVIDADE

RECORTE E COLE FORMAS DE ECONOMIZAR ENERGIA ELÉTRICA.

TOMAR BANHO RÁPIDO

APAGAR A LUZ QUANDO
NÃO ESTIVER NO CÔMODO

NÃO DEIXE A PORTA
DA GELADEIRA ABERTA

JUNTAR BASTANTE ROUPA
PARA PASSAR

BRINCAR NO BANHO

DESLIGAR A TV QUANDO
NÃO ESTIVER ASSISTINDO

● litoral brasileiro

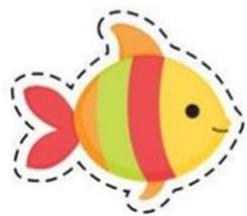

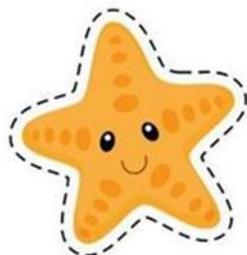

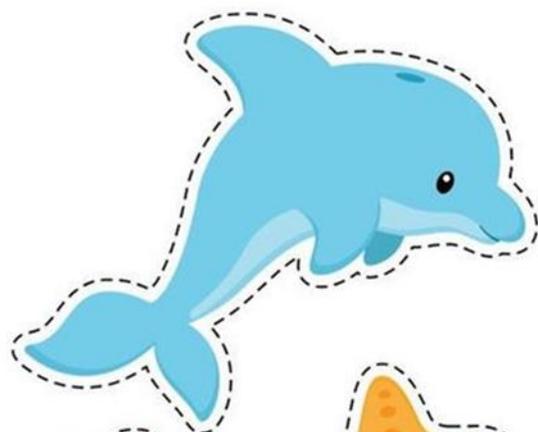

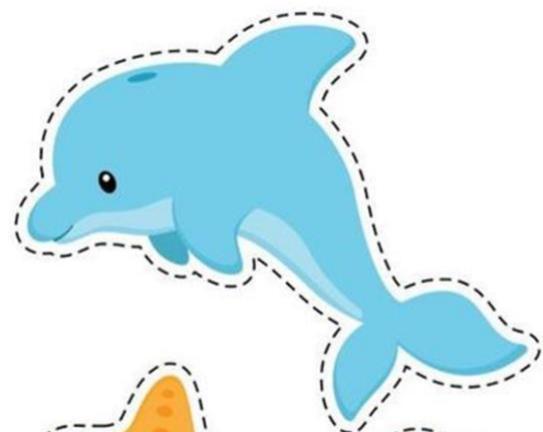

A região situada à beira-mar é chamada litoral ou costa. O litoral brasileiro começa próximo ao Cabo Orange, no Estado do Amapá, e termina no Arroio Chuí, no Estado do Rio Grande do Sul. Em toda a sua extensão, o litoral brasileiro é banhado pelo Oceano Atlântico.

The worksheet is divided into two panels by a vertical line. Both panels have a yellow background and a decorative border of colorful circles (yellow, green, blue, purple, red, orange). The left panel features the text 'CONTANDO COM DEDOS' in a dotted font. Below the text is a logo for 'Criar COLOR' and six illustrations of hands showing different finger counts: one, two, three, four, five, and six. The right panel features a large black outline of the number '0' and the word 'ZERO' in bold black letters. Below this is a large, empty rectangular box with a black border, intended for a drawing.
